分割硬碟時，若有出現以下訊息：

Fatal Error: Bad Primary Partition 0: Partition ends in the final partial cylinder, press any key to exit cfdisk

修正處理的方法：

to fix this issue, i follow these steps

1.after "Warning!! Unsupported GPT (GUID Partition Table) detected. Use GNU Parted" , press **alt+F2**

2.command shell :

```
parted /dev/sda
```

```
mklabel msdos
```

```
yes
```

```
quit
```

3.reboot , and you can install android-x86 with official method

個人做法，按 **alt+F1** 切回原安裝畫面，繼續執行安裝程序。
